

will do it. Just as the big inner played ap important part in the big offensive, the Thomas single disc drills are playing an important part in the big food offensive being played

At the price of wheat today and with prospects of more another year, can you afford to waste seed. The Thomas makes every seed count. A crop planted with a Thomas single disc drill has the advantage of a proper start. The discs and boots of the Thomas make a wide furrow in which every seed can stool out and brow. This gives a Thomas sown crop the best chance to produce the largest yields.

Hig erops mean bigger profits for you. Your order now for a Thomas is your safest assurance for reciving these extra profits.
